## One Subscription. Unlimited Access to Top Tools Across the Research Journey.

Amplify your university's impact with Editage Plus, a unique subscription by CACTUS that unlocks 4 leading research-focused tools with a single login. It's the perfect solution to help your authors save time, streamline workflows, boost overall productivity, and succeed faster.

### Academic Writing Assistant – powered by Paperpal

Write better, faster, and ethically with unlimited language correction, secure AI writing assistance, research and citation support, and key pre-submission checks trusted by 2M+ academics globally.

- ✓ **Beat writer's block** with templates, contextual text suggestions, and translation for 30+ languages.
- ✓ **Streamline research** with science-backed insights, chat with PDF capabilities, and citation support.
- ✓ **Polish your text** with in-depth language and consistency checks, paraphrasing, word reduction, and academic tone correction.
- ✓ **Submit with confidence** with instant AI reviews, trusted plagiarism detection, and 30+ language and technical checks.

### Promoting Excellence with Responsible Use of AI

#### Domain Expertise

Trained on scholarly articles and built to support academics, Paperpal delivers reliable, context-relevant support at every step.

#### In-built Guardrails

Paperpal gives precedence to human authorship with features designed to write with you, and not for you.

#### Ethical Use of AI

Timely product nudges and regular reminders for human oversight to avoid plagiarism and maintain academic integrity.

#### 100% Secure

Firewalls, encryption, and strict access controls ensure author data is always safe, and never used to train our AI models.

### Paperpal is Accessible Where You Write

#### Paperpal for Word

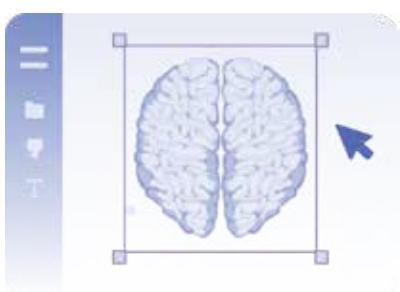

#### Paperpal for Web

#### Paperpal for Overleaf

#### Paperpal for Google Docs

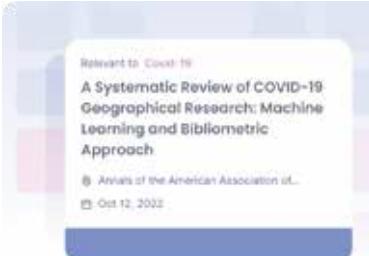

### Scientific Illustration Tool – powered by Mind the GRAPH

Transform your research into infographics, graphical abstracts, and science figures in minutes with access to the world's largest scientific illustrations gallery.

- ✓ Access 75,000+ scientifically accurate illustrations and templates across 80+ research fields.
- ✓ Create and edit visuals for professional publications with the easy drag-and-drop feature.
- ✓ Get high-resolution exports as PNG, PDF & TIFF with unlimited support from our experts.

## Literature Search & Reading Tool – powered by **R Discovery**

Always stay updated on the latest research with access to one of the largest, cleanest, most up-to-date research databases on the go, loved by 3M+ users across 190 countries.

- ✓ Get personalized reading recommendations and daily alerts from 250M+ research articles.
- ✓ Expand your horizons with Ask R Discovery, which provides factual insights with links to sources.
- ✓ Chat with PDFs, create multiple reading feeds, collaborate with peers, listen or read research in 30+ languages.
- ✓ Read full-text articles with institutional credentials; auto-sync your library with Mendeley, Zotero.

## Explore 250M+ Articles on R Discovery, with 5,000+ Papers Added Daily

**150M+** Journal articles | **40M+** Open access papers | **9.5M+** Research topics | **32K+** Journals covered

### Journal Finder

Find the right journal for your research publication needs from our extensive database of 43K+ journals indexed in CrossRef, DOAJ, Scopus, and Web of Science.

- ✓ Search by journal name/ISSN, research topic, abstract or manuscript to get the best journals.
- ✓ Assess the best fit using key journal metrics, including impact factor, time to publish, and related papers or save search results for later review.
- ✓ Use smart filters to find the best journal for your work and boost your chance of acceptance.

### Research Skill Courses

Learn from the best and create more impact with 120+ online courses for researchers, designed as bite-sized modules with templates, cheat sheets, case studies, and assignments.

- ✓ Master research essentials with courses that focus on professional and personal skills.
- ✓ Get course recommendations tailored to your needs by adding your topics of interest.
- ✓ Get certificates on successful completion of every course.

## Your Work is Always Safe with Us

Our secure servers have rigorous access restrictions to better protect your information.

We implement firewalls to prevent any unauthorized access and maintain a private network.

We use Amazon Web Services (RDS & S3), the No.1 cloud computing platform, to manage data.

## Ready to Gain the Winning Edge?

Over 23+ years, CACTUS's research-focused solutions have won the trust of academics, universities, journals, and academic societies across the globe. Here's why!

### Complete Security

Industry-best security measures keep your data 100% safe; you retain full control.

### Custom Solutions

Meticulously tailored offerings that meet your specific academic requirements.

### Customer Support

Quick, reliable assistance via email from our dedicated support team.

### Flexible Billing Options

Convenient billing process with localized payments and regional invoicing.

## Empowering Researchers Across The World

### Paperpal

 NPS of 70 Reflects High Satisfaction

### Discovery

 4.6/5 Rating

### Mind the GRAPH

 Trusted by 100+ Institutions

 Paperpal doesn't just edit my writing, it boosts my confidence. My arguments are structured, language clear & concise, and my paper meets high standards of publishing.

**Darryl Sutphin - Graduate Student**  
Georgia Institute of Technology, US

 I like Paperpal's editing quality and comprehensive features for research writing and submitting manuscripts to journals. I recommend it to all my students.

**Ricardo Cobucci - Professor**  
Potiguar University, Brazil

 I get daily notification from R Discovery about new papers that were added to my reading feed. It reminds me to read something that's new in my field.

**Olamide Olusegun - Doctoral candidate**  
University of the West of Scotland, UK

 Mind the Graph offers a wide variety of templates and specific images to make illustrations, which is harder to do with PowerPoint or other basic tools.

**Edina Lobo - PhD Student**  
Queensland University, Australia
